Policies, Regulations, Procedures and Consequences: Student Discipline

This special publication of the specific policies pertaining to students, enacted by the Rockwood School District Board of Education, has been prepared as a means to better inform students and parents of existing policies as related to student discipline. It is hoped that this information will provide a basis of understanding between the home, school and community.

Again this year, the handbook will be available online. The move to this online handbook will save the district printing and processing costs. It also aligns with district efforts to conserve resources and limit paper use. Families who wish to have a printed handbook may request one from their school principal.

All policies and regulations included in this publication were recently reviewed and revised by various school administrators. Recommended changes in existing and new policies have been approved by the Rockwood Board of Education. In addition, the Rockwood Board of Education has approved a behavioral code for students attending Rockwood Schools.

This booklet does not include special rules developed by the principal and staff of an individual building. It is the responsibility of the principal of each building to keep students and their parents or guardians informed of any special rules developed for the operation of that particular school. Such rules will be consistent with the policies of the Rockwood Board of Education. Parents and students who have questions about the intent or meaning of any of these policies are urged to contact school officials.

STUDENT DISCIPLINE:**Policy 2605**

The Board has the legal authority to make all needed policies, rules and regulations for organizing and governing the district. This includes the power to suspend or expel a student for conduct which is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of the student. These policies, rules and regulations will apply to all students in attendance in district instructional and support programs, as well as at school-sponsored activities and events. School officials are authorized to hold students accountable for misconduct away from school or in non-school activities which negatively affects the educational environment to the extent allowed by law. The district recognizes the rights of students to off-campus expressive activities, including on the internet, to the extent permitted by law. Students who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

STUDENT DISCIPLINE:**Regulation 2605**

Rockwood School District utilizes a multi-tiered approach when addressing issues related to students' conduct. Along with the Student Discipline policies, the Rockwood School District will use the "restorative practices" approach to discipline, where misbehavior or conflict is seen as an opportunity to build, maintain, and rebuild relationships among members of our community. Restorative Practices is not the absence of consequences, however, consequences for misbehavior will vary depending on how the behavior harms the health, safety, property, and learning opportunities of other students, staff, or community members and consequences deemed appropriate to the situation may also be applied.

Our Restorative approach is based on the belief that students are happier, more cooperative, more likely to make positive changes in their behavior and more academically successful when students feel safe emotionally and socially and have positive relationships to the school community. Restorative practices in Rockwood is grounded in our continuous practice of building and repairing relationships in the school community. The result of this approach is a community that is committed to self-responsibility, self-discipline, and self-awareness of how our words and actions impact one another.

Building principals are responsible for the development of rules and regulations regarding student conduct needed to maintain proper behavior in schools under their supervision. Principals, subject to appropriate due process procedures, may summarily suspend any student for up to ten (10) school days for violation of these policies, rules and regulations. Notice of suspension shall be given immediately to the parent/guardian and to the Superintendent/designee. In cases where student discipline is appealed to a higher District authority, such an appeal shall be considered on a fair, unbiased, deliberate and non-deferential basis.

Flagrant disregard for policies, rules and regulations, or continued truancy may result in suspension by the Superintendent/designee or expulsion by the Board, both subject to appropriate due process procedures. The Superintendent/designee may suspend a student for up to 180 school days; however, expulsion of students is a function only of the Board.

Teachers shall have the authority to make and enforce necessary rules for the internal governance in the classroom; subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom.

Any time a referral that warrants formal disciplinary action is submitted, a reasonable effort will be made by the principal to either contact the parent/guardian by written notice delivered by the student, through the mail, or by direct telephone contact.

All employees of the District shall annually receive instruction related to the specific contents of the District's discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity and requirements for confidentiality.

No student may be confined in an unattended locked space except in an emergency situation while awaiting the arrival of law enforcement personnel. For the purpose of this policy, a student is unattended if no person has visual contact with the student, and a locked space is a space that the student cannot reasonably exit without assistance.

A copy of the District's comprehensive discipline policy will be provided to every student and parent/guardian at the beginning of each school year and will be available in the Superintendent/designee's office during normal business hours.

Suspension:

Policy 2662

Alternative learning placement, suspension and/or expulsion may be utilized and/or recommended by the principal in accordance with the discipline policy. Students under suspension or expulsion are not allowed on school property and may not attend or participate in school activities (home or away) without special permission from the principal. The Superintendent/designee may suggest or require any other follow-up professional services deemed appropriate for any level of discipline.

Suspension

Regulation 2662

In-School Suspension/Student Support Center:

This placement is defined as an alternative learning environment within the student's own school for support in the areas of discipline, social or emotional learning, or other student support needs. The student shall be assigned for ten (10) school days or less to an alternative learning environment. The student may make up work for credit.

Long-Term In-School Suspension:

This placement is defined as removal of the student from his/her assigned classrooms and daily schedule for disciplinary purposes.

The student shall be assigned for more than ten (10) school days to an alternative learning environment located in one of the District's schools as designated by the District. The student is allowed to make up written work and labs for credit wherever possible as determined by the administration. When the consequence for a misbehavior states there may be a recommendation to the Superintendent/designee for an additional 170 school days, the Superintendent/designee may desire to give the student the option to participate in this program.

Out-of-School Suspension:

This type of suspension is defined as removal of the student from the school premises for disciplinary purposes. Students may make up work for the first out-of-school suspension. On the second out-of-school suspension and each one thereafter, students may do the work but will not receive credit except for exams and major projects. Major projects or exams missed during a suspension will be made up within the same number of days as the length of suspension. The principal may suspend for ten (10) school days. To suspend for more than ten (10) school days, a recommendation must be made to the Superintendent/ designee who may suspend up to 180 school days. Students, who are suspended by the Superintendent/designee for up to 180 school days and are not involved in the Long- Term In-School Suspension Program, may not receive credit for work during the time of the suspension. On all suspensions for more than ten (10) school days, the student has the right to appeal the decision by requesting a hearing before the Board.

Expulsion:

Policy 2663

This type of suspension is defined as removal of the student from school premises for disciplinary purposes for an indefinite period of time from the District schools. All credit for work ceases immediately. This action requires that the principal suspend the student for ten (10) school days. The principal may recommend to the Superintendent/designee that the student is expelled and the Superintendent/designee may then make a recommendation to the Board that such action be taken. The Superintendent/designee may also make a recommendation to the Board for expulsion without the principal's recommendation. The Board must act on this recommendation, but the student has a right to a hearing before the Board if requested.

Student Code of Conduct:

Policy 2610

The Student Code of Conduct is designed to foster student responsibility, respect for the rights of others, and to ensure the orderly operation of District schools. No code can be expected to list each and every offense which may result in the use of disciplinary action. However, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, or any aggravated circumstance of any offense or action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, Superintendent/designee and/or Board.

Student Discipline Policies and Regulation apply to all school sponsored activities and modes of transportation.

Discipline records will be sent to Colleges/Universities if requested.

Any and all suspension for assault, weapons or 10 days or more must be documented in the student's permanent records.

Schools are not responsible for lost or stolen personal items.

School administrators will investigate the reason for use of an electronic device by a student to determine if other district policies are also applicable, which could result in an increase in the discipline. Disciplinary action may include up to ten (10) days out-of-school suspension, and/or a recommendation to the Superintendent/designee for an additional penalty up to 170 days. Also, a referral may be made to legal authorities.

Student Alcohol and Drug Policy

The Board of Education's most important priority is the health, safety, and welfare of district students. Therefore, students may not possess, consume, use, transfer, sell, distribute, deliver, manufacture, produce or attempt to possess, consume, use, transfer, sell, distribute, deliver, manufacture or produce or possess with intent to transfer, sell, distribute, deliver, manufacture, or produce and/or be under the influence of alcoholic beverages, controlled substances, drugs, or other substances prohibited under this regulation, nor may they use, possess, sell, transfer, distribute, deliver, manufacture, produce or attempt to possess, consume, use, transfer, sell, distribute, deliver, manufacture or produce or possess with intent to transfer, sell, distribute, deliver, manufacture, or produce drug paraphernalia - while on school property; in any school-owned or operated vehicle or any other school-approved vehicle being used to transport students to and from school activities; or while participating in any school-sponsored or school-approved activity, event, or function, including but not limited to field trips and athletic events, whether on or away from school property; or at any other time when students are under the care, custody, control and/or supervision of the district.

Definitions, Related Policies, Procedures

For purposes of this regulation, "controlled substance" shall include any controlled substance, counterfeit substance, or imitation controlled substance as defined in Chapter 195 RSMo.

"Drug paraphernalia" shall have the same meaning as that term is used in Chapter 195 RSMo.

All medications prescribed by an authorized prescriber, as well as all non-prescription medication shall be administered in accordance with Policy 2870 - Administering Medications to Students.

The school administration or teacher shall have the right to conduct searches, as permitted by law applicable to public schools, of persons reasonably suspected to be in violation of this regulation at any time or location to which this regulation is applicable. Such searches shall be conducted in accordance with Policy 2150- Searches by School Personnel.

Any student who, after being given an opportunity to present his/her version of an alleged violation of this regulation, is found by the administration and/or staff to be in violation of this regulation shall be subject to disciplinary action up to and including suspension, expulsion or other discipline as provided by Board policy, and shall be referred to law enforcement authorities. Strict compliance is mandatory. All controlled and any other illegal substances shall be turned over to the local law enforcement agency.

A student may be separately charged with attempting to engage in conduct constituting any violation listed in this section when, with the purpose of committing the violation, a student does any act which is a substantial step towards the commission of the offense. A "substantial step" is conduct which is strongly corroborative of the firmness of the student's purpose to complete the infraction. It is no defense under this section that the infraction attempted was, under the actual attendant circumstances, factually or legally impossible of commission, if such violation could have been committed had the attendant circumstances been as the student believed them to be.

Alcohol and Drug Process and Prevention

The district, pursuant to the requirement of the 1989 amendments to the Drug-Free Schools and Communities Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, shall provide age-appropriate developmentally based drug and alcohol education and prevention programs to all students in all grades from early childhood level through grade 12.

Such programs shall (a) inform students that drugs and alcohol are harmful and dangerous; (b) address the legal, social and health consequences of drug and alcohol use; and (c) provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol. The district shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this regulation. All parents/guardians and students shall be provided with this information.

The district shall certify that it has adopted and implemented the drug prevention program described in this regulation in the form required by the Missouri Department of Elementary and Secondary Education or the United States Department of Education. The district shall conduct a biennial review of such program to determine its effectiveness, to implement necessary changes and to ensure that the disciplinary sanctions are consistently enforced.

Discipline

The district believes that school is a special place. Possession, use or transfer of alcohol, cereal malt beverages and/or drugs or drug paraphernalia is inconsistent with the district's educational objectives. To create a drug and alcohol free environment, the district will develop and maintain appropriate policy and procedures to address the areas of prevention, discipline and intervention.
