

2018-19 Rockwood School District

Policies, Regulations, Procedures and Consequences Handbook Information

The specific policies pertaining to students, enacted by the Rockwood School District Board of Education, can be found on the district website (www.rsdko.org/parent/pages/studenthandbook). This electronic handbook has been organized to inform students and parents of existing policies. We no longer print a version of the handbook for each student; however, parents or students may request a printed handbook by contacting the building principal.

Annual Process for Handbook Review

1. Administrators and staff will be briefed on the current handbook with special attention to any changes or revisions.
2. Under the direction of the principal, students will receive instruction on the handbook during the first week of school.
3. Students in grades 6-12 will sign an acknowledgement form indicating review of the handbook.
4. Parents will be informed of the electronic handbook on the RSD website in the back-to-school electronic newsletter.

Acknowledgement Form Indicating Review of the Handbook

**Policies, Regulations, Procedures and Consequences Handbook
Acknowledgement Form**

I received instruction on the Rockwood School District Policies, Regulations, Procedures and Consequences Handbook regarding information in the handbook, and I was able to ask questions. I understand the student code of conduct and consequences. I was informed that I could meet with a principal to discuss the handbook in more detail.

My signature verifies I have reviewed the Rockwood School District Policies, Regulations, Procedures and Consequences Handbook.
